7-June	Adult Coed Softball League	6 teams	
9-June	Adult Sailing Lessons 1	10	
11-June	Adult Sailing Lessons 2	4	

Scholarship Funds for Seniors

We'd like to continue discussion regarding establishing a scholarship fund for seniors to participate in our recreation programs. See memo.

Tennis

We have two new enthusiastic and skilled tennis instructors Alexandra Foode and Bayley Gochanour. They are playing tennis at the college level and are SWHS graduates. We're excited to be able to expand our tennis offerings, adding Adult Tennis Lessons.

Use of Community Center Gyms (The old middle school)

We have been in dialogue with the South Whidbey School District and the new Community Center (Dan Poolman and Gail Lavassar) about our continued use of the gyms at the new Community Center for our various programs. They foresee grandfathering in some programs, like our youth basketball league, but charging a rental fee for others, like our Pickleball program. In the case of Pickleball, they would like to charge \$300 per month for 5 hours per week for their Auxiliary Gym.

Adult Coed Softball League

We have 6 teams registered and 4-5 umpires lined up. A good showing!

Facilities and Grounds

- The regular season is wrapping up for little league and soccer which brings allstars tournaments and our coed softball league into play.
- We have started our aeration and topdressing program as fields are available to work on.
- This week we had the end of the year class field trips every day but managed to work on all the baseball fields prior to allstars.
- Going into summer we are in great shape and preparing for the warm up coming next week.

Director's Items

Grant Applications and presentations were completed and we are working on revisions of the projects and the presentations which are due by July 13th into the RCO. More on that in the Regular agenda.

I spent the whole week after the board meeting in Olympia listening to and reviewing Grant Proposals in Technical Review for the WWRP-Local Parks program. I learned a lot about how a successful presentation should be set up and while ours are good, will be applying the knowledge gained to our projects going forward. Being involved in this process has helped me understand even more how the grant procedures work and how to better structure our grant applications for a better chance of success.

After that I was on Vacation for a week returning to the Office on June 5th, since then I have been working on Field Scheduling, Grant Applications/presentations and Levy Information.

Upcoming Events

- 16-Jun Chum Run 5K
- 16-Jun Adult Sailing Lessons
- 16-Jun Outdoor Navigation
- 18-Jun Become a Magician! Magic Camp
- 19-Jun Falcon Basketball Camp
