

Memo

To: Board of Commissioners
From: Doug Coutts, Director
Date: 11/16/2018
Re: Inter-local Agreement

Dennis, Carrie and I attended the School District board meeting last month at which the School District changed the status of the Middle School campus (The Community Center) from being an active school facility and exempt from the inter-local agreement. Programs run at the middle school will now be charged for usage whereas programs at the other School District facilities are not currently being charged for usage.

In September, Mark and I delivered a letter per Park Board direction to the school board indicating the Park District support of the Inter-local and ongoing co-operation and collaboration for the benefit of the taxpayers of the Districts.

Carrie has put together a document with potential impact to programs of the School District's decision and some potential options for courses of action. This is a discussion item for the board at this board meeting.
