

Memo

To: Board of Commissioners
From: Doug Coutts, Director
Date: 10/11/2019
Re: Trustland Trails-private trail construction

In one of the letters received from the public on the proposed new trail at Trustland, staff was made aware of a neighbor constructing their own access trail at Trustland Trails. Staff has consulted with MRSC and the Island County Prosecutor as to potential action options and would like direction from the board on how to proceed.

This new trail is constructed on Park District land and is within the buffer from neighboring properties established by the board for the Trustland Property.

Staff would recommend a Cease and Desist process requiring abandonment of the trail as an access point and allowing the trail to return to its natural state.
