Aug 23	Pro Baseball Camp	Oct 9	Tree Climbing for the Active Senior
Aug 23	Earth Skills & Science Camp		

News:

- **Summer Registration:** Youth programs filled to capacity for the most part. Lots of refunds were processed for various reasons.
- **Triathlon** It was a solid event. The lower numbers (down by approximately 1/3) made for a more low-key and less crowded event (ideal). Great volunteer support, especially amongst the triathlon committee.

Facilities and Grounds

- So the heat wave continues this month with irrigation and associated issues seemingly everyday.
- We got through the triathlon which is always a tough week and a half for our small staff.
- I had the backflow preventer's tested today and will provide a report once I receive that in a week or so.
- I got pricing on new kiosk entry point signs for community park that I have forwarded to Doug.
- We began our top dress and pre fall field work as time permits and will continue that through September

Director's Items

Posted and interviewed for the Recreation Supervisor position, we are happy to announce that beginning on September 8th, our Recreation Supervisor will be Skye Dunn. More on that at the meeting. Also had an initial discussion with Ross Ardrey, our consultant on the Compensation Study update and have started scheduling meetings with the comparable entities from last go around to get updated information. Met with key community people on the Amphitheater project and started an action item list to get things ready for 2022 grant cycles. Busy triathlon week but the event went off very smoothly, thanks to all staff for all their efforts.

Upcoming Events

- 8-18 SWPRD Regular Board Meeting-6pm
- 9-15 SWPRD Regular Board Meeting-6pm
