News:

Triathlon – The Whidbey Island Fair shifted their date so that it's the same weekend we've had the triathlon, historically. The timing company we've used is only available on the 4th of July or late August. Bids are currently out to other timing companies.

Earth Skills Camp

Facilities and Grounds

- Signs of fall are upon us and we are focusing on field repairs and completing our topdressing for this year.
- We replaced the doublecheck backflow preventer on baseball field 1/4.
- Fall soccer is underway and cross country had the first cross country meet.
- Routine maintenance is keeping us running and trying to keep up as usual.

Director's Items

We have started working with Archive Social on the archiving of our Social Media accounts. We are linking our social media accounts to their services and with Skye coming on board on the 8th we will be scheduling a training with them for the week of September 13th. Also have updated credit card and bank accounts with Skye and Carrie in their new roles.

Got two quotes on the survey of the easement which are up for approval at this board meeting. Met with members of the Rotary Club of Whidbey Westside regarding their proposal to place two little libraries in the park, more on that in the agenda. Staff prepared the initial draft of the budget and I reviewed it for presentation at the meeting. Also had some meetings with other area agencies to gather data with the consultant for the Compensation and benefits study.
