Flag Status: Flagged

Thank you, that helps. I'm coming up with a rough cost of \$4,700 to survey that easement. I would anticipate the field crew needing two full days onsite to mark and gather all necessary data for the surveyor. Also, there's a good chance the survey would need to be recorded which adds an extra cost of \$1,500. Let me know if you have any questions.

Thank you.

Hi Doug,

I'm having difficulty locating the easement for parcel R32910-215-0720. Can you please point out on the attached map where it's located?

Thank you.
