Re: RCWW Little Libraries Request

I have been approached by the Rotary Club of Whidbey Westside with a request to install two little libraries maintained by them, in the parks. One would be in Community Park and one in the Sports Complex. These would be the same as neighborhood libraries around town and the books would be rotated and changed out by the Rotary Club.

I met with Representatives from the Rotary Club on Thursday and scouted possible locations to install the two structures. Included are photos of possible sites as well as photos of the proposed library structures for board review.

This would be a discussion and approval item for the board.
