**Re:** Return to In-Person Board Meetings-discussion

---

Staff has been looking into the possibility of returning to the in-person board meeting format. We have looked at the (included in your board packet) Guidelines for Misc Venues and have also reached out to Keith Higman at County Health for further guidance. Once I receive the guidance from Keith, I will get that out to the board and/or have it available at the board meeting. This is a discussion item for this board meeting to look at the options and requirements.
