

Memo

To: Board of Commissioners
From: Doug Coutts, Director
Date: 3/11/2022
Re: VII-a-Aquatic Center Bond Issue-Discussion

The board has discussed the prospect of putting a bond issue on the August ballot for the Aquatic Center Project. This agenda item is to discuss this possibility as a full board. Additionally, staff has been in contact with members from the Foundation and they have been invited to attend the board meeting specifically for this discussion item. If the board so desires, they could by a majority vote, suspend Robert's rules of order during this agenda item and converse in open session with members of the Foundation and any other community members in attendance.

This is a discussion item for the board this month. If the board decides a bond issue on the August ballot is warranted, a resolution will have to be brought to the board for approval at the April Board meeting in order to be to the county in time.
