### News

- In the process of finalizing a Professional Service Agreement with SWHS Athletic Booster Club. This will allow for SWHS coaches to offer camps through SWPRD with the proceeds going to their team's account with the Booster Club.
- We've added an evening Outdoor Drop-In Pickleball on Wednesdays from 5-7pm to provide an opportunity for individuals that are unable to play on weekday mornings.
- Need volunteers for Chum Run on Sunday, June 26 and Whidbey Island Triathlon on Saturday, July 23.

## Facilities and Grounds

- The biggest challenge this month has been losing our maintenance 1 position. We will also be losing one of our closing people on the 15th. We are in search replacements for those two positions as well as advertising for a seasonal maintenance position.
- In other news are on demand booster pump that supplies water to our maintenance building went out and we are in the midst of getting that repaired from king water.
- Other than that we have pretty much been on a mower dodging rain showers trying to keep the place maintain to the best of our ability.

## Director's Items

Working with the committees, the powerpoint presentations for the Grants have been completed and now presented to the RCo WWRP-Local Parks and LWCF review boards for Technical Review. We will now start the process of revision for the August review and scoring. All presentations will need some tweaking but good feedback from the review boards to make appropriate changes. If anyone has contact with an organization that could possibly submit a letter of support or even a donation towards the project, please reach out to me and we can arrange to contact them.

Erik and Tom had approached the Daikin family regarding the possibility of an easement on their property. From what I am hearing this is not something we should continue to pursue. More from Erik and Tom on this at the meeting.

Also working with Ecology to start the process of Well Decommissioning for Well # 3 and beginning to get quotes on that. Working with Ecology to remove their objections so we can move forward with the Department of Health to finalize the SWSMP.

## Upcoming Events
