

Memo

To: Board of Commissioners
From: Doug Coutts, Director
Date: 6/9/2022
Re: Comprehensive Plan Programs

Grant Applications

All the PowerPoint presentations have now gone through the Technical Review presentation with the RCO review board. We received a good amount of corrective feedback from the boards and will now revise and edit the presentations and projects for August.

Aquatic Wellness Center

The Joint Pool Committee has had its first meeting to look at next steps and discussed the possibility of conceptual renderings from Patano, as well as reviewing the current state of the grant application. Matt and I will be looking at the next steps with the \$400,000 allocation from the Supplemental State Budget towards design and get that process moving.

Erik and Tom have approached the Daikin's on the question of the easement discussed at the last board meeting and will report back to the board here.

Small Water System Management Plan

I have been in contact with the Department of Ecology and they are working with me to dismiss their conditions on the Small Water System Management Plan. I will be getting quotes on Decommissioning the Well # 3 in Community Park and plan to bring that to the board in July if possible.
