Re: Fields Meeting

After receiving the field request from the Soccer club, Skye and I met with the Soccer Club President and another board member to discuss options as their numbers have increased significantly again and we cannot accommodate them all at once. Their request was for all their teams to be accommodated from 5-6pm Monday through Thursday.

We discussed possible options with them and reached out to the School District about using their fields through the fall and winter. We have worked with the Club and the School District to make this work and hopefully have a good solution in place.

Staff will contact the Club at the end of October to begin discussions for Spring to ensure we are ahead of the curve and work with them on a solution so schedules for spring are spread out more throughout the week and the park is not overwhelmed from 5-6pm Monday through Thursday.
