

Memo

To: Board of Commissioners
From: Doug Coutts, Director
Date: 9/13/2022
Re: Asphalt Projects-Recommendations

After consulting with Curt Gordon of Island Asphalt on potential projects for this year and considering our remaining capital budget of about \$32,000 for this year, staff recommends going to bid on the following projects:

Overlay 250 ft by 20ft from south entrance of Community Park speed bump to speed bump at full 2" compacted depth-5,000 sq. ft.

Overlay 90 ft by 8 ft along the Totem Pole Area by the Playground, existing path at a full 2" compacted depth

New Pavement 215 ft by 8 ft from existing path around the backside of the skate park at full 2" compacted depth

And

Alternate bid-full overlay 330 ft by 125 ft Sports Complex upper parking area at full 2" compacted depth

We would hope to have bids for board approval at the October Meeting.
