**VI. Unfinished Business**

**A. Comprehensive Plan Programs**

**i. Aquatic Wellness Center**

Doug reported that Quin at Davido had reviewed the soils map in the other areas for possible use for the LOSS and they are looking at doing soil registrations in these areas. Doug stated that, based on staff availability, access issues, and coordinating with the State, this is not likely to happen until the fall.

**ii. Grant Applications**

Doug reported that he had submitted for technical completion the six applications for grants for the Amphitheater, the Pickleball Courts, and the Artificial Turf Field. Doug highlighted changes made in the applications at the meeting, including increased matching amounts from pledges and donated work by Davido and Flat Rock Production, increased project support letters, and demonstrating how the projects meet community need.

Doug reported that he received a call from the supervisor of the RCO offices, Marguerite Austin regarding the pool project who indicated that they have concerns about readiness to proceed with that project, so that grant application was not submitted.

**VII. New Business**

**A. Clinton Community Council**

Doug reported that he was approached by Christina Swan from the Clinton Community Council regarding the status of the Park District as a member of the Council. Christina indicated that the Council is updating their bylaws and would like the Park District as a voting member of the council. If the board did not feel like the Park District needs to be represented at that level, then the council would like to officially remove the Park District as a council member.

*Matt made a motion that the District re-establish board membership on the Clinton Community Council, and it was unanimously approved.*

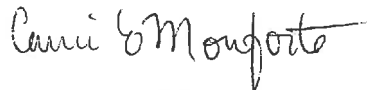

**B. Well Decommissioning – SWSMP – Quotes**

Doug explained that he had solicited quotes for decommissioning well #3 as part of the process of getting the SWSMP approved by the state and which is necessary for proceeding with any expansion of the park including the campground and pool. He displayed the two quotes he had received, and indicated that a third who had intended to submit a quote had not followed through.

*Matt made a motion to approve the Aquatech bid under job number 22273 for \$6,576.35, and it was unanimously approved.*
