Facilities and Grounds

- Thankfully the weather has broken just enough for us to edge, weed, drag and prepare the baseball fields for spring season. Tryouts will be happening at the end of the month.
- We just completed the equestrian access trail at Trustland trails. The public was excited as we were working and all asked for more.
- All sports fields had an application of fertilizer and we are seeing the turf begin to wake up as day length and temperatures return to spring like patterns.
- I will be setting up a meeting soon with Derek Hacker to look at all 3 lake sites and provide an update on the deer lake project / dock install timeline.

- I'm working with Davido consulting to set up the LOSS soil evaluation site visit and hope to get that accomplished in the next few weeks.

Director's Items

I have spent most of the past month trying to wrap up as many things as possible before my departure and getting things organized for the interim as well as some items for the new Executive Director when they come on board. Most items will be addressed in the Regular meeting agenda.

Upcoming Events

2/15	SWPRD Regular Board Meeting	6pm
3/15	SWPRD Regular Board Meeting	6pm
