Re: Trustland Trails Signage and Maps

The South Whidbey Parks & Aquatics Foundation reached out a while ago regarding funds they have been holding to be used for wayfinding signage, posts, and maps at Trustland Trails. A donation of \$2,000 was matched with \$2,000 from Microsoft.

This is a project that is needed, especially since trails have been added. Tom had some temporary signs made to post out there directing traffic to the parking lot, and I am working on updating the map with new trails.

Perhaps a volunteer would like to spearhead the effort to get the signage. SWPAF indicated that we could make the purchase and submit the invoice to be paid directly by SWPAF.
