Re: Comprehensive Plan Update

This item was tabled again last meeting. We discussed scheduling a workshop specifically for the Comprehensive Plan, but my attempts to schedule the workshop were unsuccessful in getting a full group gathered.

I propose a first workshop in September, after a Director is fully on board, after folks are back from vacations, and after we've wrapped up summer season busy-ness.

Please bring your schedule to the board meeting so we can find a common date when key folks can be present.

As a reminder, the workshop will be the next step in the update of our Comprehensive Plan for 2024-2029, reviewing *Appendix C: Level of Service Determination* of the current Comprehensive Plan. In your board packet is:

- 2018-2023 SWPRD Comprehensive Plan
- Levels of Service Defined
- RCO Planning Requirements
- NRPA Level of Service Guidelines
